Let RPM Global Fleet Complete Solution help you reduce the risk and increase your success.

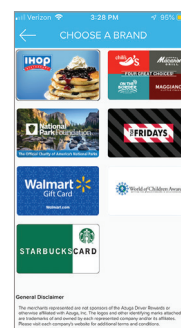

With the ease of a “plug and play” installed OBD-II device, you can unlock safety for your fleet.

- Ability to determine when driving behaviors are becoming a risk to your fleet’s safety - detect hard braking, hard acceleration and hard cornering.

In addition, RPM Global brings safety to the palm of your driver’s hands.

- **RPM Global Coach:** A new driver coaching tool to improve safety-end poor driving habits with training solutions tailored to fit every driver, delivered right to their phone through RPM Global FleetMobile.

- An integrated rewards program delivered from within RPM Global Fleet makes it easy to reward your drivers for driving safely.
